

# RIVERPOINTE

POST-ACUTE | CARMICHAEL, CA

**August 27th, 2020**

## **RiverPointe Post-Acute communication update related to Covid-19.**

We are deeply committed to the health and safety of our residents and staff members. In an effort to provide the most current updates we will be uploading all Covid-19 related updates on our website [RiverPointePostAcute.com](http://RiverPointePostAcute.com). We only post updates when there is a change in confirmed positive cases or two or more people exhibiting signs or symptoms.

We communicate daily with CDC, CDPH, and local county health department. They work closely with us to manage Covid-19 mitigation. At this time we have activated our Covid-19 Positive Wing in accordance with our state approved mitigation plan. Residents who have tested positive are being cared for by our special covid-19 designated team who only work in this wing.

## **Resident and Staff Status**

There are currently 19 confirmed, COVID-19 positive residents in our COVID-19 isolation unit. We will begin to see the many of these residents safely come out of isolation this week. This is an increase of 7 since the last time we conducted weekly response-driven testing.

There are two additional staff members who tested positive this week. Currently 10 team members who are unavailable to work because of a COVID-19 positive test.

Since January 1, 2020, there have been 22 residents and 17 team members who have tested positive for COVID-19.

Thank you for your support and understanding during these challenging times. We are here for you. Please don't hesitate to reach out if you have any questions.

Sincerely,

Steve Baddley, NHA (916) 752-2443 cell phone

Mark Ocampo, DON (916) 512-7125 cell phone
